### **DAY THREE – THURSDAY, 2 NOVEMBER 2023**

Prepare to journey back in time and explore the ancient wonders of Egypt on this exciting day of our tour. Our first stop will be Memphis, the former capital of the Old Kingdom of Egypt, and home to a magnificent statue of Ramesses II and an impressive Alabaster Sphinx. Memphis was once a grand city, founded over 5,000 years ago and considered ancient Egypt's cultural and religious center.

Next, we travel to the nearby "Cemetery City" of Sakkara, where you will marvel at the oldest pyramid in the world: the Step Pyramid of King Zoser. This architectural masterpiece was built in the 27<sup>th</sup> century BCE and was the first of its kind, serving as the inspiration for all later pyramids.

In the afternoon, we will visit the legendary Great Pyramids of Giza, the last surviving wonder of the ancient world. The pyramids were built over 4,500 years ago and were once considered the tallest structures in the world. You will stand in awe of these incredible structures and ponder the mysteries surrounding their construction.

Located nearby, the Sphinx, a mystical statue with a human's head and a lion's body, keeps watch over the plains of Giza. The Sphinx is believed to have been built over 4,500 years ago by Chephren as a guardian of the pyramids.

After a day of exploration and adventure, return to your hotel in Cairo to rest and reflect on the incredible sights and experiences of the day.

### **DAY 4 – FRIDAY, 3 NOVEMBER 2023**

After breakfast, we will be transferred to Cairo Airport for our flight to Aswan. (*Note: The flight is approximately one hour and fifteen minutes.*) As you arrive, you will immediately notice the contrast between the bustling city of Cairo and the more tranquil Aswan, which sits on the banks of the Nile River.

Our first stop will be the impressive Aswan High Dam, an engineering marvel that controls the Nile's flooding and generates hydroelectric power for much of Egypt. Built in the 1960s, this massive structure is an important symbol of modern Egypt.

Next, you will visit the beautiful Philae Temple, located on an island in the Nile. Dedicated to the goddess Isis, this temple was nearly lost forever due to the construction of the High Dam, which threatened to submerge it. Luckily, the temple was relocated to higher ground and remains one of the most well-preserved ancient Egyptian temples.

Finally, we will explore the beautiful Aswan Botanical Garden, located on Kitchener's Island. This tranquil oasis is home to a variety of exotic plants and trees from all over the world.

The temple boasts stunning views of the Nile River and is known for its unique architecture, which features a double design due to its dedication to two gods.

After we visit the temple, we will return to the cruiser and continue our journey along the Nile toward Edfu. As you sail along the river, take in the stunning views of the surrounding landscape, dotted with palm trees, small villages, and ancient ruins.

In the evening, we will arrive in Edfu, a city on the Nile River's west bank. Here, you will have the opportunity to explore the city on your own or simply relax on board the cruiser and take in the peaceful ambiance of the Nile River.

## **DAY 6 – SUNDAY, 5 NOVEMBER 2023**

After breakfast, we will transfer through Edfu to visit the famous and best-preserved ancient Greek-built Horus temple. As told in Nichols' book, *The Moses Scroll*, the Shapira story involves a controversial set of biblical manuscripts discovered in the late 19<sup>th</sup> century and initially dismissed as forgeries. However, some scholars, including Nichols, now believe these manuscripts may have been authentic and could represent the oldest known biblical texts. Nichols' unique perspective on this fascinating topic will surely enhance your understanding and appreciation of the Wadi Mujib and its biblical significance.
